GRAZING LOG

Use this form to mark the days each month that your livestock were grazing on pasture. Ruminant livestock attain at least 30% of their dry matter demand from pasture during a minimum 120-day grazing season per NOP §205.237(c).

Year _____ Name/Farm Name _____ Type & Class of Ruminant _____

Your records must indicate which days animals were grazing, which days they were not grazing, and the reason animals were not grazing on a given day. It may also be important to track the location where grazing took place on a given day. You can use a combination of markings and/or colors to record this information. For instance, crossing out days that were not grazed in different colors based on the reason (blue for weather, red for sickness, etc.) and circle grazing days in different colors to indicate the pasture(s) or paddock(s) grazed. Alternatively, this form may be supplemented by a diary or log with appropriate notations.
